Sample academic report for the Business Environment activity

1. Business profile and introduction

Hotel Krishna & Garden Restaurant is a hotel and restaurant located at Vadal, Junagadh, Gujarat, near the Junagadh–Rajkot Highway. The hotel is situated in a convenient location, which makes it easy for local people as well as travellers to visit the place. Because of its highway location, people travelling between Junagadh and Rajkot can stop here for food, refreshments and rest.

The hotel provides different facilities for its customers. It has a restaurant with indoor seating where customers can enjoy their meals in a comfortable environment. It also has a garden area with outdoor seating, which is suitable for families, groups and small gatherings. The hotel also provides accommodation for guests who need a place to stay.

Hotel Krishna & Garden Restaurant mainly serves local customers, families, travellers and groups. Customers can visit the hotel for regular meals, family dinners, small celebrations and other gatherings. The garden area gives the hotel an additional advantage because it provides an open and pleasant place for customers to sit and enjoy their food.

The hotel focuses on providing food, comfortable seating and a good environment for its customers. Cleanliness, food quality, reasonable prices and good customer service are important for the hotel because these things can affect customer satisfaction.

Overall, Hotel Krishna & Garden Restaurant is a local hotel and restaurant that provides food, accommodation, garden seating and space for small gatherings. Its location, facilities and services make it a useful place for both local customers and highway travellers. The following PESTEL analysis helps us understand the different outside factors that can affect the hotel's business and future growth.

2. objective of the visit

- To understand the business environment of Hotel Krishna & Garden Restaurant.
- To study the political factors affecting the hotel.
- To understand the economic factors affecting the business.
- To study the social needs and choices of customers.
- To understand the effect of technology on the hotel.
- To study the legal rules followed by the hotel.
- To understand the environmental factors related to the hotel.
- To find the opportunities and possible problems for the hotel.

3. interview summary

During the interview, we collected basic information about Hotel Krishna & Garden Restaurant and its daily business activities. The hotel mainly serves local customers, families and travellers coming through the Junagadh–Rajkot Highway. The hotel provides food, hotel rooms, indoor dining and garden seating. Good food quality, cleanliness, reasonable prices and polite service are important for keeping customers satisfied.

We also discussed the main challenges faced by the hotel, such as increasing food prices, electricity costs, competition and changing customer needs. Technology like digital payments, social media and online reviews can help the hotel reach more customers. Overall, good service, proper staff management, cleanliness and customer satisfaction are important for the future growth of the hotel.

4. Political Factors

Political factors include government decisions, taxes, rules and support that can affect a business.

For Hotel Krishna & Garden Restaurant, some important political factors are:

- Government rules for hotels and restaurants can affect daily business activities.
- Changes in GST and other taxes can affect food and room prices.
- Government support for tourism can increase the number of visitors in the area.
- Road and highway development can affect the number of customers travelling near the hotel.
- Local government rules related to cleanliness and public safety also affect the hotel.
- Changes in government policies can increase the cost of running the business.

Effect On Hotel

Good government policies and better roads can help the hotel get more customers. On the other hand, higher taxes or strict new rules can increase business costs.

5. Economic Factors

Economic factors are related to income, prices, inflation, employment and customer spending.

For the hotel, important economic factors are:

- Increase in food prices can increase the cost of preparing meals.
- Higher electricity, gas and water costs can increase operating expenses.
- Customers usually prefer food and rooms at reasonable prices.
- During festivals and holidays, customer spending may increase.
- Travellers can provide regular business because of the highway location.
- Changes in the economy can affect people's spending on hotels and restaurants.
- Employment and local business activity can also affect the number of customers.

Effect on Hotel

If prices increase too much, customers may reduce their spending. The hotel therefore needs to maintain good food and service at reasonable prices.

6. Social Factors

Social factors are related to people's lifestyle, habits, culture and preferences.

Some important social factors for Hotel Krishna & Garden Restaurant are:

- Families prefer clean and comfortable places for dining.
- Customers like tasty and fresh food.
- People are becoming more careful about cleanliness and hygiene.
- Garden seating can attract families and groups.
- Gujarati and Indian food preferences can help the restaurant attract local customers.
- People also visit restaurants for birthdays, family functions and small gatherings.
- Friendly staff and quick service can improve customer satisfaction.
- Travellers usually prefer a comfortable place where they can stop, eat and rest.

Effect on Hotel

The hotel can attract more customers by providing good food, clean surroundings, comfortable seating and friendly service.

7. Technological Factors

Technology is becoming important in the hotel and restaurant business.

- Hotel Krishna & Garden Restaurant can use technology in different ways:
- Online food ordering can help the restaurant reach more customers.
- Digital payment methods make payment easier for customers.
- Social media can be used to promote the hotel.
- Online reviews can help new customers know about the hotel.
- CCTV cameras can improve security.
- Computer systems can help in billing and record keeping.
- Online hotel booking can help customers book rooms easily.
- Digital menus can make ordering easier.

Effect on Hotel

Using new technology can save time and improve customer service. Online promotion can also help the hotel reach customers outside Vadai.

8. Environmental Factors

Environmental factors are very important for hotels and restaurants because they use food, water, electricity and other resources. Important environmental factors include:

- Proper disposal of food waste is necessary.
- The hotel should avoid unnecessary use of plastic.
- Water should be used carefully.
- Electricity should be saved whenever possible.
- Garden and plants should be properly maintained.
- Clean surroundings can improve the customer experience.
- Waste should be separated and disposed of properly.
- The hotel can use energy-saving lights and equipment.

Effect on Hotel

A clean and green environment can attract families and travellers. Environment-friendly practices can also reduce unnecessary costs.

9. Legal Factors

Legal factors include laws and rules that a hotel and restaurant must follow. Some important legal areas are:

- Food safety and hygiene rules must be followed.
- Required food and business licences should be maintained.
- GST and other applicable taxes must be paid correctly.
- Fire safety rules should be followed.
- Employee-related laws and safety rules should be followed.
- Hotel guest records and identification requirements should be properly managed.
- Clean drinking water and hygienic food should be provided.
- Customer safety should be given proper attention.

Effect on Hotel

Following legal rules helps the hotel operate safely and avoid penalties or problems. It also creates trust among customers

10. key findings

From the PESTEL analysis, we found that Hotel Krishna & Garden Restaurant has a good location near the Junagadh–Rajkot Highway, which helps it attract local customers, families and travellers. The hotel has restaurant facilities, hotel rooms and a garden area, which gives customers different options for dining and small gatherings.

We also found that food quality, cleanliness, reasonable prices and good customer service are important for the hotel's success. Technology, changing customer needs, food prices, government rules and competition can also affect the hotel's business.

11. major challenges

The major challenges for the hotel are increasing food prices, electricity and maintenance costs, competition from other hotels and changing customer expectations. Maintaining food quality, cleanliness and good service while keeping prices reasonable can also be difficult.

The hotel also needs to keep up with technology and online customer reviews. If customers are not satisfied with food, service or cleanliness, it may affect the hotel's reputation and future business.

12. future opportunities

Hotel Krishna & Garden Restaurant has good opportunities for future growth because of its highway location and garden area. It can attract more travellers and families by providing good food, clean surroundings and comfortable seating. The garden can also be used for small parties, family functions and other gatherings.

The hotel can also increase its customers through social media, online reviews and digital promotion. Online booking and digital payment facilities can make the service easier for customers and help the hotel build a better presence in the market.

13. Recommendations

The hotel should focus on maintaining good food quality, cleanliness and friendly customer service. Prices should be kept reasonable according to the quality of food and services provided. The garden and restaurant areas should be properly maintained to give customers a comfortable experience.

The hotel should also use social media for promotion and encourage customers to give feedback and online reviews. Digital payment and online booking facilities can be improved. Proper management of food, water, electricity and other expenses can also help the hotel reduce costs and improve its business.

14. learning outcomes

Through this project, we learned how a real hotel and restaurant business works and how different outside factors can affect its business. We understood the importance of political, economic, social, technological, environmental and legal factors through the PESTEL analysis.

We also learned that customer satisfaction, good service, cleanliness, proper cost management and technology are important for the growth of a business. This project helped us connect our classroom knowledge with a real business situation.

15. Conclusion

Hotel Krishna & Garden Restaurant has a good location near the Junagadh -Rajkot Highway and has the advantage of hotel rooms, restaurant facilities and garden seating.

The PESTEL analysis shows that government rules, economic conditions, customer preferences, technology, environment and legal requirements can affect the hotel business.

The hotel can grow by focusing on good food, cleanliness, customer service and reasonable prices. It can also use social media, online booking and digital payment to improve its business.

Overall, Hotel Krishna & Garden Restaurant has good opportunities because of its location and services. With proper management and regular improvement, the hotel can attract more local customers as well as highway travellers.
